F

For suppression  
of Bermudagrass in certain  
cool season turf.

## An Excellent Choice for Your Lawn

**Temperature** - Most products perform best when temps are between 65°F to 85°F.

**Mowing** - In most cases do not mow 2/3 days prior to or after application.

**Watering** - In most cases, wait 24 hours to water.

Read all product labels & use a smart phone to access 2-D \*Mobi Tags for quick information.
